Flash talk sessions

www.eaaci.org

#EAACI2023

| Presenter name | Session | No. | Title | Abstract |
|---------------------|--|-------|---|----------|
| Issa Mohammad | Flash talks on food allergy in children | FT 01 | Perinatal exposure to TiO2 nanoparticles increases the progeny's proclivity to develop food allergy | 000255 |
| Elizur Arnon | Flash talks on food allergy treatment | FT 02 | Hazelnut cross desensitization following walnut oral immunotherapy | 001096 |
| Sanchez Jorge | Flash talks on drug allergy I | FT 03 | Resolution of NSAID hypersensitivity is associated with chronic spontaneous urticaria remission | 000175 |
| Pulvirenti Federica | Flash talks on COVID 19 | FT 04 | SARS-CoV-2 pre-exposure prophylaxis with AZD7442 monoclonal antibodies in Inborn Errors of Immunity with Antibody Defects | 001674 |
| Pérez-Alzate Diana | Flash talks on drug allergy II | FT 05 | Evolution Of Nonimmediate Hipersensitivity To Betalactams In Children | 000739 |
| Güler Tuğba | Flash talks on immunodeficiencies and autoimmunity | FT 06 | GASTROINTESTINAL SYSTEM INVOLVEMENT in PATIENTS WITH PRIMARY IMMUNE DEFICIENCY | 001124 |
| Jeong Kyunguk | Flash talks on food allergy diagnosis | FT 07 | Clinical and laboratory investigation of perilla seed allergy in Korean children | 000391 |
| Arnau Soler Aleix | Flash talks on genomics and proteomics | FT 08 | Genomic Risk Scores and Molecular Biomarkers for Oral Immunotherapy Treatment Response in Children with Peanut Allergy | 001125 |
| Cerqua Ida | Flash talks on asthma treatment | FT 09 | Role of sex hormones in β 2-receptor-mediated relaxation in bronchial tissue | 001595 |
| Aiuto Beatrice | Flash talks on anaphylaxis and food allergy | FT 10 | Study of α -Gal glycosylation of cow's milk proteins and allergological implications | 001169 |

| Presenter name | Session | No. | Title | Abstract |
|-----------------------|--|-------|--|----------|
| Klok Ted | Flash talks on allergen Immunotherapy I | FT 11 | Road to oral immunotherapy for all food allergic infants: design of the ORKA-NL study | 001644 |
| Samson Nichell A N | Flash talks on allergen immunotherapy II | FT 12 | Depigmented-polymerized Phleum pratense and Grass-mix extracts are similar in their tolerogenic capacity for use in Allergen-Specific Immunotherapy Treatments | 001073 |
| Guemari Amir | Flash talks on allergy diagnosis I | FT 13 | Natural history and relationship of serum immunoglobulin A responses to Aspergillus fumigatus extracts and components in pediatric cystic fibrosis patients | 001653 |
| Macías-Camero Andrea | Flash talks on anaphylaxis | FT 14 | Multiomics characterization of a dietary intervention model with pectins in a nsLTP food allergy model | 000978 |
| Asano Koichiro | Flash talks on asthma | FT 15 | Eosinophilic component is ubiquitous among allergic bronchopulmonary aspergillosis with atopic, non-atopic, and sans asthma – factor analysis – | 000197 |
| Cronin Caoimhe | Flash talks on pediatric allergy | FT 16 | The Milk Ladder for IgE-Mediated Cow's Milk Protein Allergy in Ireland: A ten-year retrospective Analysis | 000064 |
| Pali-Schöll Isabella | Flash talks on exposome | FT 17 | Beta-lactoglobulin as allergy-protective lipocalin from farm dust: searching its sources in bovine tissues | 000437 |
| Sánchez Montalvo Alba | Flash talks on rhinitis and rhinosinusitis | FT 18 | Mouse model of neutrophilic non-Type 2 CRS: the superior effect of Staphylococcus aureus compared with Pseudomonas aeruginosa and Streptococcus pneumoniae | 001343 |
| Gasser Pascal | Flash talks on immunomodulation | FT 19 | MY006: a passive immunotherapy for the treatment of peanut allergy | 000159 |
| Walsemann Theresa | Flash talks on allergy diagnosis II | FT 20 | Single house dust mite allergens as potential biomarkers for allergic asthma and atopic dermatitis | 000870 |

| Presenter name | Session | No. | Title | Abstract |
|------------------------|---|---------|---|----------|
| Bartko Ewa | Flash talks on urticaria | FT 21 | Serological profiling in chronic urticaria | 000445 |
| Rondon Carmen | Flash talks on atopic dermatitis | FT 23 | Dupilumab-induced conjunctivitis in atopic dermatitis patients is not associated to a decreased expression of conjunctival tight junctions | 000482 |
| Zwiener Ricardo | Flash talks on angioedema | FT 25 | Burden of hereditary angioedema: Findings from a multinational survey of caregivers for pediatric and adult patients in Argentina and Colombia | 001071 |
| Ercan Saricoban Hulya | Flash talks on pediatric allergy and prevention | L-FT 22 | Determination Of The Effect Of KIF3A Gene Polymorphism in Turkish Children with Atopic Dermatitis | 100096 |
| Trujillo Juan | Flash talks on food allergy | L-FT 24 | A Retrospective Comparison of IgE-Mediated Cows Milk Protein Allergy Management | 100019 |
| Petersen Remy Sanne | Flash talks on immune-mediated diseases | L-FT 26 | Updated safety and efficacy of NTLA-2002, a CRISPR/Cas9-based gene editing therapy targeting KLKB1, in a Phase 1 study of patients with hereditary angioedema | 100082 |
| Pavord Ian | Flash talks on asthma II | L-FT 27 | Understanding the effect of clinical baseline characteristics on SABA reliever use in patients with moderate-severe asthma | 100133 |
| Ramos Barbara Cristina | Flash talks on food allergy and immunotherapy | L-FT 28 | Profile Of Peanut Allergens Sensitization And Its Cross-Reactivity In Brazil | 100147 |
